Required Materials List

☐ **Height:** Make sure to have an accurate height measurement, not a guess. We require a photo with a tape stick showing the height at the hip in inches.

☐ **PROFESSIONAL** Quality Photos, showing all 4 sides required (right, left, front legs & feet, rear, height verification). We need to see build, confirmation, color and structure.
You can have up to 10 photo's. Please do not send all your photos and ask us to select.

  ☐ See complete list of photo requirements under sellers tab on website.

☐ **Professional Quality Video:** Show only one animal in the video.

  ☐ Must submit two videos. One landscape uploaded to YouTube and also portrait clips needed for social media promotions.
  ☐ See complete list of video requirements under sellers tab on website.

☐ **Testing Documents:** Copy of UC Davis or equivalent test results required verifying color, Dwarfism (Chrondro) and parental status. This won't be needed for AHCA sales.

☐ **Registration Certificates** and signed transfer documents if animal is registered.

☐ **Reserve Price:** When setting a reserve price, this amount should be the LEAST amount you are willing to accept, not the amount you are hoping to receive. We will always market each horse to the fullest and work towards getting top dollar to the best of our ability.

☐ **Health Certificate:** While a veterinary health certificate is not required to consign, it is welcome to provide. Please include age verification. Pre-purchase exams can be extremely beneficial in achieving higher price points.

  ☐ As a seller, you will be responsible for obtaining proper health transportation documents and ensuring all animals have proper vaccinations required for interstate travel concluding the sale. It is recommended to have this vet appointment made at the start of the sale to avoid delays in pick-up at the conclusion of the sale.

☐ **Embryo transfers:** Completed Embryo form must be signed by the veterinarian or person that performed the Embryo transfer.
